Never Buy a Honda With This Engine - YouTube

P0303 is a relatively common Honda Fit trouble code. It stands for: P0303: Misfire Detected → Cylinder 3. P0303 should not be ignored, and can be a threat to the drivability the Honda Fit. The nice thing about P0303 is that it's a cylinder specific trouble code, which makes diagnosing the problems simpler than P0300, which means that the cylinders are randomly misfiring.
