Project Gutenberg is a wonderful source of free ebooks – particularly for academic work. However, it uses US copyright law, which isn't universal; some books listed as public domain might still be in copyright in other countries. RightsDirect explains the situation in more detail.

### Body And Nation The Global

Body and Nation interrogates the connections among the body, the nation, and the world in twentieth-century U.S. history. The idea that bodies and bodily characteristics are heavily freighted with values that are often linked to political and social spheres remains underdeveloped in the histories of America's relations with the rest of the world.
