### **Impressionist Camera: Pictorial Photography in Europe ...**

The foremost impressionist characteristic is the fanciful colors that reveal the "impression". The light also plays a crucial role in capturing brief moments in impressionist artworks. Other prominent impressionist traits are short, broken brushstrokes and blurred soft shadow lines or blurry background to eliminate the detail.

### **Breaking the Rules—Impressionist Photography ...**

Edgar Degas was one Impressionist who was so intrigued with this new ability to capture a moment in time that he also pursued photography as a creative outlet. There are a number of examples of how he used his knowledge of photography in his art, which you can see in his sketches and paintings of race horses.

### **Impressionism - The influence of Photography - Kiama Art ...**

Impressionism is an art movement that began in the 19th century with the works of Monet whose painting "Impression, Sunrise" gave rise to the name of the art movement. I often think of photography as two different art forms.

### **5 Impressionist Photo Techniques - Digital Photography School**

The first permanent photograph was made in 1826 by Joseph Niepce, but photography became more widespread in 1839 after Louis Daguerre (France, 1787-1851) invented the metal-based daguerreotype and William Henry Fox Talbot (England, 1800-1877) invented the paper and salt print process involving the negative/positive approach that came to be associated with film photography.

### **Impressionism and Photography - LiveAbout**

Although the art of intentional camera movement has been in existence for decades, each individual photo artist has their own unique approach to creating their impressionistic visions of the world. I have long admired the feelings, techniques and emotions that are evoked by Monet, Cezanne, Degas, Manet and others of the French Impressionist Period.
